Concept Note and Agenda: Annual Meeting Governance Fund

Place and date

Berlin, 5th of June 2019 (Representative Office of the Regional State of Bremen in Berlin)

Background

Commissioned by BMZ (Federal Ministry of Economic Cooperation and Development) in 2016, the Advisory Fund for Structural and Regulatory Policy Reforms (FSRP) / Governance Fund aims at integrating German policy experiences into the advisory work of German Development Policy. In our partner countries there is a high level of interest in analysing the specific structural and regulatory approaches taken by Germany, and in using elements of these and lessons learned in their own reform projects. To this end the fund is establishing and developing high ranking networks of German experts, active and former policy makers and administrative authorities in the fields of Political Participation, Public Financial Management, (Green) Economic Policy/Innovation Policy, Decentralization, E-Governance and recently Rule of Law. The new project phase will start in October 2019 with a focus on African partner countries.

Objectives of the meeting

The main objective of this year's meeting is to foster cooperation between Germany and African partner countries in the area of good governance and to bring together German and African partners to exchange views and experiences on key governance issues. Furthermore, we want to:

- Initiate partnerships between German stakeholders and their African peers
- Link up the communities (administration, development, Africa, Germany)
- Pre-plan future collaborations between the Governance Fonds and African partners in the upcoming new phase of the project

Participants

- Ca. 100 participants in total
- Participants from 8 African partner countries (policy makers, technical administrative staff, partners of GIZ programs from Ghana, Morocco, Madagascar, Benin, Burkina Faso, Mozambique, Zambia and South Africa interested in an exchange with their German peers)
- Participants from Germany (active and former policy makers, technical administrative staff, who are interested in reform processes in African partner countries and ready to share their own experiences)
- BMZ, GIZ

Moderation: Ms. Kah Walla (STRATEGIES! from Cameroon)

Conference language is English with simultaneous translation into French, Portuguese and German
